

OBJECTIVE

I aspire to broaden my intellectual horizons and make meaningful contributions to society within a collaborative and cooperative professional setting. With unwavering commitment, I strive to deliver excellence in every endeavour and circumstance I encounter. Consequently, I am actively seeking a position that not only refines my skill set but also facilitates personal growth through practical experience. My keen interest lies in conducting research in the field of Economics, particularly in exploring its intersections with various facets of everyday life, such as the transformative impact of Industry 4.0, the dynamics of healthcare systems, and the critical importance of environmental sustainability. By delving into these subjects, I aim to deepen our understanding of their intricate complexities and identify innovative solutions to drive positive change. By capitalizing on my existing knowledge and skills, coupled with the invaluable experience gained through collaborative research and real-world application, I am confident in my ability to make meaningful contributions and thrive in the pursuit of knowledge.

RESEARCH AREAS

Primary Area – Economics with a focused approach towards understanding socioeconomic issues, green economy, sustainable development and industrial dynamics.

Secondary Area – Technology 4.0 (Artificial Intelligence, Blockchain, Cloud Computing) and its relation to my primary area while studying the effects on various domains of growth, development, and employment.

EDUCATION

Master of Arts in Economics

September 2022 – Ongoing

FS University
Grade – 72.9%

Shikohabad, India

Currently, I am mainly focused on the research field with the topics of Sustainable development, Green development, Healthcare, Industry 4.0 and Agriculture with respect to the field of Economics. The various aspects of Ethical AI, Applications of technology in business decision making as well as understanding the role of Sustainable Development Goals on the economies of various countries were explored.

Bachelor of Arts in Economics (Honors)

August 2019 – June 2022

Galgotias University
Grade – 87.6%

Greater Noida, India

During my time at the university, I learnt to carve my niche in different fields of research. As a part of the academic activities, I wrote a thesis titled, "Caste v/s Class: An analytical study of the society" which focused on relating the economic factor to the prevailing issue of caste segregation in India. Through the course of my degree, I even contributed to a number of research projects ranging from the topics of health care, technologies in the digital era as well as the industry 4.0.

Higher Secondary School Certificate

April 2017 – March 2018

Green Field Academy

Lakhimpur Kheri, India

My tenure at Green Field Academy proved to be an exceedingly productive and transformative period, during which I had the opportunity to cultivate essential interpersonal skills while appreciating the significance of establishing meaningful connections. Moreover, my alma mater provided a valuable platform for honing my oratory abilities through active participation in numerous debates and elocutions. Equally significant was the emphasis placed on assuming positions of responsibility, contributing significantly to my personal growth and development. Overall, Green Field Academy played a pivotal role in shaping my character, equipping me with essential life skills, and nurturing me into the well-rounded individual I am today.

Secondary School Certificate

April 2015 – March 2016

Green Field Academy

Lakhimpur Kheri, India

WORK EXPERIENCE

Entrepreneurship Student Coordinator

August 2021 – July 2022

Entrepreneurship and Innovation Cell,
Galgotias University

Greater Noida, India

LITERARY WORKS

- Let Them Go! - Notion Press (2024, June) , ISBN - 979-8894462127

A story capturing the moments of life, the highs and lows, the tale of holding on and letting go! Sometimes the hardest goodbyes are the ones which are not said, often we have been told. This is a tale of many twists and turns, an act of understanding each other and thus finding happiness in life. It is about discovering yourself in the chaos of life, while staying true to the world. It is not about being selfish but being selfless in its true essence.

- Twisted Love - Notion Press (2023, February) , *ISBN - 979-8889864011*

A captivating story of a dystopian world which does not care for what is humane or what is not. An entangled web of lies, deceit or a harsh reality too hard to digest in this is paranoid world. Love twists people, but blind love breaks them; it pushes them to the edge and sometimes over it. In the end, what is left are the human values, the values that we harbour since birth and upon which the world thrives; after all is done and dusted, the only question that we are left with is, "In the end, Is everything meaningless?".

- The Unspoken Truth - Notion Press (2022, November) , *ISBN - 979-8888691731*

We live in a paradoxical world which chooses to ignore the unpopular opinion just because it does not suit them. In this book the opinion which is not a hype for the people, being the bitter truth of the society is pondered upon. The incidents which take place with someone we might not have known, are often so boring that we choose to ignore them. We would rather turn our heads away and pretend they're not happening.
